As transmitted to the imperial government by the secretary of state through Minister Wu the demands in brief were: "That the Chinese government give assurance that the foreign ministers are alive, and if so, in what condition.

to, it is regarded as highly improbable that the government of the United States or any of the European governments, all of which have made practically the same demands on China, will consent to a "cessation of hostile demonstrations" which are being conducted, at least so far as this government is concerned, with the sole urpose of succoring the besieged legaioners in the Chinese capital. Minister Wu is inclined to take an opti-

mistic view of the situation, but it can be sald authoritatively that his view is not shared in full by the Washington officials. There is no disposition evident to-day to abate by one single jot the demands which have been made upon China. A strong hope is expressed, however, that the Chinese government will accede to the demands eventually, and perhaps very soon. This hope is based on the edict appointing Earl Li to sue for peace. To this extent it may be said that the view of the officials here is optimistic.

NOT AN ANSWER. No reply-at least no direct reply-has been received to the memorandum transmitted to the Chinese government through Minister Wu by the Department of State. It may be that the imperative demands government to-day, but the edict in itself is not accepted as a reply to those de-

The attitude assumed by the diplomatic in Washington is sufficient evidence that the powers will press vigorously the demands which they have made upon the Chinese government. To Peking the allied armies will go, it is declared frankly, unless every demand is acceded to and all possible reparation is made by China for the outrages already committed. Negotiations looking to any other settlement of the disturbance in China will not be con-

During the day the War Department officials awaited anxiously additional news from General Chaffee. One dispatch was received from him transmitting a message he had received from Minister Conger. Evidently the message had been delayed long in reaching him, and his own dispatch was dated four days ago. The dispatch was as

TOIT-SUN, & Message received to-day: Peking, Aug. 4.-We will hold on until your arrival. Hope it will be soon. Send such information as you can. Conger.'-CHAF-

It is presumed at the War Department that the dispatch of General Chaffee was dated at Yang-Tsun, and that an error was made in transmission. While the message of Minister Conger contains nothing new, it was encouraging to the officials to have renewed assurance of his ability and determination to "hold on" until relief reached him. That General Chaffee will communicate to the besieged minister tidings of hope and good cheer, if the opportunity be afforded him, officials here are certain. Mr. Conger's expression of hope that the long looked for relief may soon reach him simply adds to the determination of the government to press forward to Peking as rapidly as may be possible.

Mr. Wu Is Elated.

WASHINGTON, Aug. 12 .- Mr. Wu, the Chinese minister here, is very much elated over the appointment of Li Hung Chang as a plenipotentiary to arrange peace with the powers. He sincerely hopes it will be accepted by them, as the results attained, in his opinion, would be satisfactory to all

"I think Earl Li's designation a capital one," he said. "Aside from the Emperor and Empress he is the highest official of the Chinese government, and he has the implicit confidence of all Chinamen. In many ways he is eminently qualified to act as an intermediary between his own government and the representatives of the powers which may be appointed to act with him. He has done excellent work for the Chinese and they have great confidence in his discretion and wisdom. Earl Li has traveled over a large part of the world, has met many of its foremost people, and they are familiar with his ability. I hope his appointment will be acceptable to the powers and I know the result of the negotiations conducted by him will be satisfactory alike to Chinese and to foreigners, for he will be just and honorable in all his dealings."

PROMPT ANSWER RETURNED.

No Negotiations Until the Just American Demands Are Satisfied.

WASHINGTON, Aug. 12.-To-night Secretary Adee, by direction of President Mc-Kinley, presented to Minister Wu, for transmission to his government, the reply of the United States to the imperial edict appointing Li Hung Chang envoy to negotiate with the powers for a cessation of hostilities. The text of the reply will not be made public before to-morrow. In eftect, however, it is a reiteration of the demands previously made by the United States upon China, coupled with a vigorous intimation that no negotiations will be entered into until the Chinese government shall have complied with those demands.

This government, inspired by a deterination to effect the rescue of the legationers besieged in Peking, takes advantage in its reply to the edict to reiterate the demands previously made on China. These demands first were made by the President. July 23, and subsequently were reiterated substantially by Acting Secretary Adee, by direction of the President. The demands for the protection of the ministers; for free communication between them and their respective governments, and for the restoration of order in China form the keynote of the memorandum forwarded to the imperial government by the President today. The iteration and reiteration of the demands must, it is thought, make it perfectly clear to the Chinese government that no negotiations will be entered upon until a square-toed compliance with them has been made. Should the demands be acceded to, there will be no obstacles, it is believed, in the way of a settlement of other questions which have arisen out of the pending troubles.

NO FEAR OF GHOSTS.

German Voters of Spencer Are Not Stampeding to Mr. Bryan.

Special to the Indianapolis Journal. ROCKPORT, Ind., Aug. 12.-The specters of militarism and imperialism which the Democratic party has raised to terrify the German voters of the country have not stampeded that element in Spencer and the other counties of the "Pocket." The First district has a large German vote, located chiefly in Spencer, Warrick, Pike and Vanderburg counties, and throughout these countles one looks in vain for the groundswell which is alleged to be bearing the Democratic nominees to victory.

With the exception of Vanderburg county, with its large German element in Evansville, Spencer has more German voters than any other county in the district. Over 5,000 votes were cast in this county in 1895, and fully 1,500 came from the German element. Harrison township has practically a solid German population, the most of whom are Catholics, and they have usually voted the Democratic ticket. In the election of 1896 the Democratic majority in that township was materially reduced, but the change was caused by the silent vote, which could not be located by politicians at the time, and it is equally impossible to say how large this vote will be in the coming election. However, their opposition to free silver is as strong now as four years ago, and so far they have utterly failed to great pleasure to those who attend ecome terrified at the threat of imperial-

In Huff township perhaps 60 per cent. of the voters are German. Republicans refer to the dismal failure of a recent attempt to stalk the German vote with imperialism. A German voter was imported from Bryan's home to arouse his countrymen to their danger, but they wouldn't arouse, and after one or two depressing efforts in the northern part of the county he left for a more fruitful field. Four Not Expected to Live-One Will Die or Be Insane-Party Was Holding a Family Picnic.

NEW YORK, Aug. 12.-Nine persons who hurriedly sought shelter under some trees and bushes in the woods in Bronx section during the storm this afternoon were struck by the same flash of lightning. The persons injured were: James Brown, a Hungarian tailor of this city, his wife and five children, and Bertha Lescowitz and Bertha Silverman, neighbors of the Browns. All the injured persons were taken to Fordham Hospital. At a late hour to-night the attending physicians said they thought Mrs. Brown, two of her children and Bertha Silverman could not possibly live. The Silverman girl was the worst injured of all. Of Bertha Lescowitz the physicians said

she would either die or become hopelessly

The Brown family decided early in the week to spend to-day in a little picnic of their own, and selected "the woods" as a desirable place. They invited the Lescowitz PARIS, Aug. 12.-During maneuvers of and Silverman girls to go with them. Mr. Brown and his party had just sat down to their lunch when it began to rain and blow. They were all under a large oak tree, when the father told them to seek shelter some day by a heavy storm, which forced the place cise, as he was afraid of lightning hitting the tree. RAIN BROUGHT COMFORT.

The long-expected and much-hoped-for rain arrived yesterday most unexpectedly, bringing with it a change of temperature heartily welcome to the sweltering populace of Indianapolis. Owing to the short report weather bureau on Saturday nights it was impossible for Chief Wappenhans to make an accurate prognostication for yesterday. and consequently the rain, with its mani-

There were local showers throughout the greater part of the State, the rain coming from the west and moving on far east of Indianapolis. During the first shower, which occurred at 10:30 yesterday morning. the temperature fell from 85 degrees to 70 degrees, and during the second shower, which began about 1:20 p. m., the temperature, which had ascended again to 85, fell to 66, a fall of 19 degrees. The maximum temperature for the day was 85 degrees, The readings for the day by hours were as follows:

Awnings Damaged and Trees Dismantled Over the City. Jupiter Pluvius, after several weeks of dleness visited the sweltering citizens yesterday, and his visit will be spoken of for some time. Not content with coming in the morning in a mild welcome form, after which the warm rays of old Sol again undid the cooling effects of his visit, he again came in the afternoon with great noise and was accompanied by a semihurricane. The rain, if alone, was received with open arms, but the friend jealous of the way in which Jupiter was received, shook houses and uprooted trees, tore awnings from their fastenings, and anything lying about loose he carried away for some blocks to test the patience of the there were as many as four awnings that will need the assistance of the repair men the western part of the city several big trees were torn off at the roots and laid in the roadway. the accompanying high wind drove it in sheets along the asphalt pavements and it somewhat resembled a cloudburst. Everywhere could be seen gutters running full of water. On South New Jersey street the water was so high that it found its way into the cellars of some of the residents. Reports received here last night from surrounding points in the county tell of great damage done to standing crops by the storm yesterday afternoon. In many places many acres of corn were blown down by the high wind. The rain converted dry fields into lakes. In many orchards, where young fruit was just ripening for
